## HOW MUCH WE PAY FOR LOSS OR CLAIM

The following provisions apply in addition to any other provisions under **How Much We Pay For Loss or Claim**.

Available Insurance

*Your* available insurance for each animal depends on the number of animals *you* have at the time of the loss. To determine the amount of insurance available for each animal, *we* divide the amount of insurance on each class or type by the number of animals *you* have at the time of the loss.

$$\frac{\text{Amount of Insurance on each class or type}}{\text{Number of Animals of each class or type at the time of loss}} = \text{Available Insurance.}$$

We pay the amount determined as available insurance by not more than:

- 1) The Actual Cash Value of the animal; or
- 2) The Limit per Head (shown above).
